Build A Bigger Life!

In today's frenzied pace, our lives tend to be consumed with people, activities and things that don't always make our lives feel bigger, but much much smaller. The life you most desire is within reach, but only if you dare to ask bigger questions, have bigger plans, and trust that you are the architect of your life starting today. This fast-paced, interactive session will have you laughing, learning, and yearning to make small but significant changes daily. It is said that those who desire an uncommonly BIGGER life, must come to the realization that they must approach life in an uncommonly BIG way. You'll take away connections, strategies, and a mindset for living a life you've always dreamed of.

Mastery of Money for Students

There is a game that we all play with money, and at any given point in time in our lives, we're either winning or losing. The problem is, most Americans were never taught the rules of how to play the game. Play by the rules, and it's entirely possible to be completely financially free by your early 30's. Make the rules up as you go and you're bound to be relying on someone else for your financial well-being well into old age. You CAN have everything you want in life... The Money Savvy Student will show you how! The Money Savvy Student is a 60-90 minute keynote session with the option of offering books to your audience.

Networking Power

Most college students don't realize that their dream job is hidden somewhere in their own network, and with a little help, can be found prior to graduation. Adam's description of the new "social capital" movement will have students on the edge of their seats as they come to grips with what they've been missing all along. In this "everybody wins" environment, your campus will be buzzing with Super Connectors long after the program is done. Networking Power is a 60-90 minute keynote session that is highly interactive with LOTS of audience participation.

The Successful Career Launch

So you're about to graduate and it's time to step into the world of "professional work", but where is the manual for doing it successfully? In reality, there is no class for successfully launching your career, but there are concrete and definite steps you can take to make sure the leap from school to work is a positively impactful one. From what to ask, what to wear, what to read, and how to prep for the very first day, you'll learn how to launch your career that sets you up for the greatest upward mobility. You'll take away:

- How to clarify expectations from your boss in the most impressive way
- What research to do prior to starting your first day of work
- THE book to scan prior to interacting with your co-workers
- How and when to ask for more responsibility and that coveted promotion
- What NOT to say in your first 6 months on the job
- Why having a killer LinkedIn profile is critical
- And much more!
